

i-math Short course on numerical simulation in electromagnetism and industrial applications

INTENDED FOR

young researchers who want to initiate into the mathematical applications in electromagnetism and, more specifically, into numerical methods and industrial problems.

LOCATION

Faculty of Mathematics, Santiago de Compostela, Spain

TIMES AND DATE

February, 22nd-25th 2010
24 hours

PROGRAM

(All the lectures will be delivered in English)

Mathematical models in electromagnetism

*Alfredo Bermúdez de Castro, Department of Applied Mathematics
Universidade de Santiago de Compostela, Spain*

Mathematical and numerical analysis of different formulations

*Alberto Valli, Department of Mathematics. Università degli Studi di Trento, Italy
Salim Medhahi, Department of Mathematics. Universidad de Oviedo, Spain*

Electromagnetic losses. Application to electric machines

Luc Dupré. Department of Energy, Systems and Automation. Universiteit Gent, Belgium

REGISTRATION

Attendance is free of charge, but registration is mandatory
