

02-07-11 / 04-07-11 Short course on Numerical Methods for Hyperbolic Equations

July 2th-4th, 2011
Faculty of Mathematics
University of Santiago de Compostela

International Conference to honour Professor E.F. Toro in the month of his 65th birthday.

In recognition of Prof. Toro's contribution to education and training on numerical methods for PDEs, prior to the conference (July 2-4, 2011) there will be a short course suitable for postgraduate students on topics closely related to the research themes of the main event.
